PROFILE

Solution driven web developer adept at contributing to highly collaborative work environment and customer satisfaction. Working extensively on web development with 5 years of experience. As a Drupalist, I assume a number of roles in my work including: Project Manager, Web Producer, Strategist, Architect, Developer, Themer, Data Architect, Site Builder, and Support Engineer for projects featuring Drupal or Wordpress websites. I am proficient in leading internal or external development teams, liaising with contractors and managing client relationships.

WORK EXPERIENCE

Senior Drupal Developer

Xeno Media : Contractor 2022- Present

- Worked on setting up workflow using Github Actions.
- Worked on Communicating requirements to the client and delivering efficient solutions within the time lines.
- Custom module functions for Bibcite and setting up publication system for client.
- Worked on complete e-commerce solution and setup payment gateway.

PROJECTS

- **Energy Frontier**: <http://energyfrontier.us/>
Migrated Drupal 7 site to Drupal 9.
Used Bibcite module to handle Publications.
Created a custom voting system.
Handled data migration.
- **Diamond Piers**: <https://www.diamondpiers.com/>
Added a custom e-commerce system to buy merchandise for contractors.
Enabled users to scan barcodes and earn points.
- **Civicfed** : <https://www.civicfed.org/>
Migrated Drupal 7 site to Drupal 9
Data migration and custom functionality in Drupal 8.
Lead Developer
- **Xeno Media** : <https://www.xenomedia.com/>
Headless Architecture used NextJs to create frontend and Drupal for Backend.

WORK EXPERIENCE

Senior Drupal Developer

Pinakle Studio

2019 - 2021

- Migrated non-Drupal website to Drupal 9 and maintenance post migration.
- Implemented Agolia search to increase the speed of site.
- Blended extensive business knowledge with technology expertise to develop custom web solutions while solving day-to-day issues.
- Successfully deployed websites on hosting servers with adequate maintenance, backup, recovery, etc.
- Developed bulletproof quality codes with best practices in place for future scalability.
- Build custom themes for Drupal, using PHPTemplate, Twig, HTML, CSS, LESS, jQuery and Javascript.
- Technologies include: PHP5, PHP7, PHP8, Twig, HTML5, CSS3, LESS, jQuery, MySQL, Apache, Linux, APC, Drupal versions 4.through 9 AJAX, JavaScript, Bootstrap, Linux, and Pantheon.
- Perform periodic and security updates as they are issued on drupal.org.
- Upgrade custom Drupal Modules and Themes to Drupal 7, 8 and 9.
- Design web strategies based on evaluating an organization's processes and upcoming needs.

Web Developer (Internship)

Webenertia

2019-2020

- Assisted in Drupal and WordPress migrations (Drupal 6→8, WordPress) and contributed to custom module/theme development.
- Supported integration testing, security updates, and site maintenance tasks.
- Gained exposure to SOLR search, responsive design, and version control with Git.
